**1: ∞**

Audio visual art, installation and performance. 1: ∞ (inf). Is the collaboration between composer, sound artist percussionist Emilio Gordoa and visual artist Lena Czerniawska.

We work blurring the boundaries between sight and sound, drawing and music. Our tools are defrag- mentation, dis-temporalization and recon- textualization. We have interest in work as a process, non-strict focus on starting or ending points. Through our art, we seek to mirror (or at least observe and interpret) the environmental and social complexities of our era, weaving together elements of physicality, abstraction, imagery, and sound.

Our work takes on added urgency as we seek to confront these environmental realities through our artistic practice. By incorporating elements of environmental awareness and activism into our work, we strive to shed light on the interconnectedness of human activity and the health of our planet. Through creative interventions and thought- provoking installations, we aim to inspire reflection and action in the face of climate change, recognizing the vital role that our environment plays in shaping our collective future.

We approach our work without preconceived expectations, but with a clear focus on exploring sound. We prioritize the creative process over rigid beginnings or conclusions, encouraging a dynamic approach to our practice.
