

MARIANELA LEON

Marianela is a Spanish artist-dancer-performer based in Madrid. Her body is the medium.

After more than 20 years of many body practices and studies (highlights: Butoh dance and Feldenkrais method) her body has become a skillful antenna and transmitter to other bodies.

ANTEZ

Antez is a kind of nomadic European sound artist. He comes from the music, but now he prefers the talk of performance for his sonorous act. He explores the matter by interviewing the physical perception of sound and its relation with its (architectural) environment. He developed a singular acoustic technic of diffusion of vibration, which implicates the balance of his body.

The motivation of this creation of encounter passes by a common sensible relation between vibratory energies and their projection in space. Those of movement and sound.
